

STRENGTHENING ACCESS TO MEDICAL OXYGEN FOR WOMEN'S AND CHILDREN'S HEALTH

LEVERAGING PATH'S OXYGEN DELIVERY TOOLKIT

26 October 2021 | 8:00am-10:00am (EST, USA & Canada)

1. **Brief description of context and purpose.** This webinar will focus on raising awareness on the medical oxygen needs for women and children, highlighting the various medical oxygen delivery systems, and presenting a series of technical resources in PATH's [Oxygen Delivery Toolkit](#) that assist in the scale up of oxygen to meet those needs.
2. **Brief description of key content, target groups, faculty and expected next steps**

Key contents This webinar will focus on:

- Raising awareness of GFF Country platforms around medical oxygen needs for women and children, and the importance of transitioning medical oxygen investments made during COVID-19 to meet the needs of women and children, long-term.
- Presenting how PATH's Oxygen Delivery Toolkit can be used to assist in the prioritization, design, costing, implementation, and successful scale of medical oxygen systems.

Target group This webinar addresses primarily GFF country liaison officers and country platform representatives, as well as World Bank task team leaders, and other country stakeholders who support efforts to scale up **essential health services** for women and children.

Faculty

- Core Presentation: Lisa Smith, Senior Market Dynamics Officer, PATH
- Country Case Studies: PATH TBD
- Facilitator(s), Pascal Franck Hildebert and/or Michael Otto Matheke-Fischer

Expected next steps (after the webinar)

- An information package is shared with participants, including
 - A Summary note;
 - Presentations in PDF format;
 - All material referenced during the webinar
 - The link to the webinar's recording
